LABEL ITEMS		GENERAL INSTRUCTIONS If a preprinted label has been provided, affix it in the designated space. Review the information carefully; if any of it is incorrect, cross through it and enter the correct data in the appropriate fill-in area below. Also, if any of the preprinted data is absent (the area to the left of the label space lists the information that should appear), please provide it in the proper fill-in area(s) below. If the label is complete and correct, you need not complete items I, III, V, and VI (except VI-B which must be completed regardless). Complete all items if no label has been provided. Refer to the instructions for detailed item descriptions and for the legal authorizations under which this data is collected.

II. POLLUTANT CHARACTERISTICS			
INSTRUCTIONS: Complete A through J to determine whether you need to submit any permit application forms to the EPA. If you answer "yes" to any questions, you must submit this form and the supplemental form listed in the parenthesis following the question. Mark "X" in the box in the third column if the supplemental form is attached. If you answer "no" to each question, you need not submit any of these forms. You may answer "no" if your activity is excluded from permit requirements; see Section C of the instructions. See also, Section D of the instructions for definitions of bold-faced terms.

 Attach to this application a topographic map of the area extending to at least one mile beyond property boundaries. The map must show the outline of the facility, the location of each of its existing and proposed intake and discharge structures, each of its hazardous waste treatment, storage, or disposal facilities, and each well where it injects fluids underground. Include all springs, rivers and other surface water bodies in the map area. See instructions for precise requirements.

XII. NATURE OF BUSINESS (provide a brief description)

The Ladd Landing Development consists of two distinct but related facilities: the Ladd Coal Export Terminal and the Ladd Logistics Center.

The functions of the Ladd Coal Export Terminal (LCXT) are coal receipt, storage, reclaim, transport, and vessel loading. The LCXT will receive coal from the Chuitna Coal Mine via an overland conveyor. If there is no vessel on the berth associated with the LCXT, coal will be stockpiled until a vessel is on the berth. If a vessel is on the berth, the incoming coal will be transported via a conveyor through the stockpile area and loaded directly onto the vessel.

The Ladd Logistics Center (LLC) will serve as the central receiving, warehousing and distribution facility for all components of the Chuitna Coal Project, including the Chuitna Coal Mine and the Ladd Coal Export Terminal. The LLC will receive, store and distribute goods, machinery, equipment, and bulk fuel and lubricants.

XIII. CERTIFICATION (see instructions)

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this application and all attachments and that, based on my inquiry of those persons immediately responsible for obtaining the information contained in the application, I believe that the information is true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.
